Address: 95 A Biltstraat, Utrecht, 3572AL (NL)

PROFESSIONAL SUMMARY

Hands-on, experienced frontend software engineer with more than 2+ years building products in the JavaScript ecosystem.

Here are some of the reasons why I may be a good fit for your company:

- A good understanding of the core JavaScript language, HTML5, and CSS3
- Familiar with a server-side work with node.js and a bit of Python
- Proficiency in developing well-structured web applications using modern JavaScript tools like React and Redux
- Skilled in communicating complex technical concepts in clear & concise long/short-form articles.

A team player with the ability to integrate seamlessly into a new or existing team.
